**ISDI COMMENTS ON
Draft Revised Standard for Infant Formula and Formula for Special Medical
Purposes Intended for Infants**

At Step 8 of the procedure

Answer to CL 2006/50-NFSDU

The Draft Revised Standard for Infant Formula and Formula for Special Medical Purposes Intended for Infants has been moved forward to Step 8 and hence is sent to the Codex Commission for adoption.

ISDI notes that the following items were finally approved at the last CCNFSDU session and ISDI supports those sections:

- The Essential Composition (3.1)
- The Optional Ingredients which may be added to those products (3.2)
- The Food Additives section (4)
- The Labelling requirements for those products (9)

Therefore, ISDI strongly supports the adoption of the Standard for Infant Formula and Formula for Special Medical Purposes Intended for Infants by the Codex Commission in July 2007.
